

Opportunities for Living

ONE HEALTH | ONE MISSION

**The Campaign for World-Class Animal Health Care
at the Rosamond Gifford Zoo**

Benefits of Support

Friends of the Rosamond Gifford Zoo thanks you for your interest in participating in its capital campaign to build the Animal Health Center, which will replace the current 1,500 square-foot clinic in the zoo with a 20,000 square-foot free standing health center offering cutting-edge health care to our wide variety of animal species.

All investors of \$5,000 and more will be recognized on donor signage at the zoo.

ONE HEALTH | ONE MISSION

The Campaign for World-Class Animal Health Care at the Rosamond Gifford Zoo

THE AJAY *and* BATU MEMORIAL FUND

*to Benefit the Rosamond Gifford Zoo
Animal Health Center*

In December 2020, a deadly strain of Elephant Endotheliotropic Herpes Virus (EEHV) claimed the lives of our two young Asian elephant calves, brothers Batu and Ajay. While we continue to support efforts to find a vaccine for this insidious disease, the zoo also plans to ensure that our new animal health center has on-site EEHV testing and treatment equipment.

The Ajay and Batu Memorial Fund will honor their memory by providing this equipment in their names. Donations to the fund will go to purchase a PCR (polymerase chain reaction) machine to test blood for EEHV, a centrifuge for extracting plasma for treatment, refrigerator units for blood and plasma storage and staff training on the equipment and procedures. The anticipated cost for the equipment alone is over \$100,000.
